

Foam Shape - Pathfinder

The Pathfinder illustrates a simple configuration of various components from the Tike Site that serves as the ideal environment to foster children's confidence as they improve their motor skills. Such skills as balance, coordination and body control are essential to learning a sense of autonomy.

Constructed soft play foam shapes used as development tools for toddlers to discover gross motor skills. Design conforms to safety standards and tested durable materials are used to deliver a resilient hygienic product that will be longlasting.

Material Properties
